The Strikers Take Sides Against Gould.

And Master Workman Irons says the Magnate Runs this Country to Suit Himself.

All the Men or None Will go to Work—Powderly is ill—Hoxie's Telegram.

THE STRIKE.

All the Knights on Noug Must go to Work.

By Telegraph to THE SENTINEL.
EAST ST. LOUIS, April 2.—After Governor Oglesby spoke yesterday afternoon, Martin Irons replied, taking issue with the governor that this was the best government on earth. He declared it had been perverted and that Jay Gould ran it and defied the law whenever he pleased without any rebuke, but that he had appealed to the civil power to prevent any lawlessness among his oppressed employees. Irons said the strike was not on account of Hall's discharge, but for principle and the recognition of organized labor.

ALL MEN MUST BE TAKEN BACK.

The Knights demand that all who struck be taken back in a body, and the railway officials are determined to re-employ only those actually needed, consequently the strike still continues.

POWDERLY ILL.

SCRANTON, April 2.—Mr. Powderly is at home ill and his physician prescribes absolute rest for some days.

A STRIKE Averted.

PHILADELPHIA, April 2.—At a mass meeting the street employees ratified a compromise, thereby averting a strike. The men got about all they demanded.

ITALIANS STRIKE.

YOUNGSTOWN, O., April 2.—Fifty Italians in the limestone quarry struck yesterday for an advance of three cents per ton. To-day they induced all quarrymen to quit work.

RECEIVING FREIGHT.

ST. LOUIS, April 2.—Messrs. Turner, Hayes and Bailey, of the general executive board of the Knights of Labor, have not yet arrived. The Missouri Pacific freight agents are receiving freight this morning for all points on the Gould southwest system.

THE WORST OVER.

NEW YORK, April 2.—Jay Gould, received a dispatch from Hoxie at St. Louis, saying that he thought the worst was over, but things may not run smoothly for some days. He had plenty of force to run trains and do repairs and was gradually recruiting his force with new men.

Sixteen hundred delegates from Knights of Labor organizations will hold a convention at Cincinnati, April 17, and Mr. Powderly is expected to preside.

NOT ARRIVED YET.

ST. LOUIS, Mo., April 2.—The general executive committee have not arrived up to 1 p. m.

RUNNING CARS.

The Wabash has sent out a train of twenty cars of live stock, east bound, since noon. The Vandalia has brought in a coal train of fifteen cars.

A Ball Player's Claim.

By Telegraph to THE SENTINEL.
PITTSBURG, Pa., April 2.—The application of Samuel Barkley, the ball player, for the court to restrain the American association from interfering with him for playing with the Pittsburgh club, was before Judge Stowe to-day. The judge took the question of jurisdiction under consideration, and said that the action of the association in suspending and fining Barkley was clearly illegal, but he was not sure that his injunction would operate outside of Pennsylvania.

A \$60,000 Fire.

By Telegraph to THE SENTINEL.
CHICAGO, April 2.—A fire to-day in the factory of the Fairbank Canning company damaged the building and machinery to the extent of \$60,000. Two hundred men employed in the department where the fire originated barely escaped with their lives. Insurance, \$30,000.

Business Failures.

By Telegraph to THE SENTINEL.
NEW YORK, April 2.—The business failures of the first quarter of 1886 in the United States were 3,203. Liabilities slightly over \$29,000,000. Less than in any similar period since 1873.

The Emma Abbott opera company will sing at Lafayette.

A new Catholic church will be erected in Elkhart, to cost \$18,000.

The new bridge over the Ohio, at Louisville, will be completed in about a month.

The Bell Telephone company declare the Pan Electric agitation gives them no uneasiness.

The strike in the Studebaker shops, at South Bend, entailed a loss upon the strikers of \$14,000 in wages.

Master Workman Powderly worked in a machine shop in his youth and conned his books by a candle's fitful flame.

The Brazil rolling mill and steel works shut down yesterday, the company being unable to secure iron on account of the strike.

The firemen and police of New Albany have not been paid for two months, and the discomfort is causing loud and bitter complaints.

Work has again commenced in earnest on the new court house at Bloomfield and is expected to be finished by the coming July.

It is stated that no less than 15,000 persons are injured annually from the single duty of coupling cars in the United States.

Henry Ward Beecher will lecture at Plymouth church, Indianapolis, Monday evening, April 5. His subject will be "Conscience."

Mrs. Elizabeth C. Gregory, widow of the late Judge Robert C. Gregory, of Lafayette, died last Friday in Cedar Rapids, Iowa, after an illness of two weeks.

Michigan City people are not satisfied with the \$45,000 appropriated to that city by congress in the river and harbor bill, and claim that \$100,000 will be necessary for needed harbor improvements at that point.

The business portion of North Liberty in the southern part of St. Joseph county, was wiped out by fire last Sunday night. As the fire started in two places at the same time, it is believed it was caused by incendiaries.

The largest township in the state is Union township, Montgomery county, in which Crawfordville is located. It contains 101 square miles, and in November, 1884, 2,999 votes were cast. Within its borders there are four towns, two stations and part of another town.

In the Brazil mining district 1,500 miners have signed the temperance pledge, and several saloons have been closed owing to the conversion of the proprietors. The revival has been conducted by Mr. J. E. Martin, president of the Vigo county temperance union.

Further developments in the Miller Brothers' failure, at Evansville, show a most deplorable state of affairs. Besides its \$184,500 of liabilities first reported, and which have been secured, it now appears that there are nearly \$200,000 of debts totally unsecured, making the total liabilities about \$400,000 and the visible assets about half that amount. Speculation was the cause of the failure.

The locomotive engineers have arranged a grand gift concert for the benefit of the widows and orphans of members of their brotherhood. It is proposed to give away \$100,000 worth of property and realty, including a number of farms and many useful articles on which 62,500 chances will be held. The drawing takes place April 19, at Doyle's opera house, Mattoon, Ill. Tickets are \$2.00 each.

The citizens of Garrett and Auburn are moving in the matter of gravel roads, several meetings having already been held to consider the subject. "Tuesday night, in accordance with the agreement of the meeting held Monday night of last week, the citizens of Auburn met again in the court room, and discussed at greater length the advisability of making a gravel road from our town west to the county line, with a side road branching to Garrett. Estimates as to costs per mile varied from \$1,000 to \$1,500," says the Auburn Dispatch.

Lew Casady, of South Bend, has invented an invisible duck boat which is said to be a success. He took an ordinary flat bottom boat, cut out the sides, from the bow back one-third of the length, down to the water line, covered the part over and made it air tight, and then placed at the rear end of this compartment twenty-eight inches high, and as wide as the boat. Behind this mirror he had the balance of the boat in which to paddle and shoot. He proved by a trial that he could paddle his boat straight up to a flock of ducks, watching them through a peep hole in the mirror.

When they looked toward the boat all they saw was their own reflection in the glass. When within easy shot the hunter dropped the mirror by losing a catch and got two shots, one at the ducks on the water and one as they rose.

"Adam Patry struck a job last Saturday. In the morning he was complaining to Wm. J. Craig that he could not get any work. Craig did not think Adam wanted work, and told him so. 'Yes I do,' says Adam, whereupon Mr. Craig said he would give Adam three dollars if he would carry a chair all day from Townsend's residence on Wabash street, to the engine house, which Adam accepted, and Jim Godfrey was hired to watch Adam and see if he filled his contract, which he did, and Jim got his dollar for bossing the job and see it well done," says the Bluffton Chronicle.

Brown, of Ohio, while going from the capitol to take a car for his house yesterday, accidentally fell with his entire weight on left leg, which had previously been wounded. At one time it was thought he would not survive during the night, but is resting comfortably to-day. No bones broken.

HOUSE.
On motion of Mr. O'Neill, of Missouri, the private business was dispensed with and the house went into committee of the whole. Mr. Springer in the chair, on the labor arbitration bill. All debate on the first section is limited to thirty minutes.

Arizona's Governor.

The successor of Frederick A. Tritle as governor of Arizona is C. Meyer Zulick, of Newark, N. J. His term of office began in February last, but his confirmation was strenuously opposed by some members of the senate from the moment of his first announcement. A strong delegation went from Arizona to defeat the confirmation on the ground, it is claimed, that Arizona believe in the doctrine of home rule and that Governor Zulick's way of doing business since he has assumed the duties of the office may do very well for the east, but they will not answer for the wild west. The salary attached to the office is but \$2,000 a year. Yet ten times that amount has already been spent in efforts to prevent Governor Zulick drawing it.

IS IT SO!

Geo. Graham Sends Out Another Story.

He Accuses Cora Lee of Shooting His First Wife Right in His Presence.

Mr. and Mrs. Lee T. Breese and Graham's Children Coming to Fort Wayne.

GEORGE GRAHAM.

Makes His Semi-Official Confession of the Murder.

By Telegraph to THE SENTINEL.

SPRINGFIELD, Mo., April 2.—The theory of the defense in the Graham case was given: a correspondent yesterday. After the preliminary examination of Molloy and Lee, Attorney Delany and other friends of Graham gave him their ultimatum by telling him his confession was too gaudy, and that he must, if he expected them to assist him, make a clean breast. The correspondent has it on good authority that Graham told them the following story, and that he has turned over to his lawyer notes, letters, telegrams, etc., to substantiate the tale—at any rate Delany seems more cheerful and says Graham is guilty of no capital crime at all, and he will prove it. On the night of the murder Cora met Graham and wife at the depot at Dorchester, and there a council was held between the trio, Cora and George urging Sarah to clear out and not trouble them, offering her \$150, all the money they had. She refused, and all started to the farm in a wagon. All the way a hot quarrel was kept up between the two women, George trying to pacify them. When the pasture was reached, in a fit of jealous madness, Cora

and shot Sarah while she was clinging to George for protection, and if this tale is made to stick, and the letters, telegrams, etc., produced to show Cora was not expecting Sarah to get off at Dorchester, and evidence brought to light (as it is claimed will be) to show Cora did meet them at Dorchester, then the whole case will assume a new phase. The maximum punishment of Graham as accessory after the fact would be but five years. Graham seems to be willing, at least, to sacrifice Cora to save his own worthless neck. Mrs. Molloy has not yet given bail. A decision in the habeas corpus case will be given on Tuesday next.

GRAHAM'S FAMILY.

Mr. and Mrs. Breese started for their home in Indiana last night, accompanied by Charley and Roy Graham. Yesterday afternoon Graham served notice on Breese not to take the children out of the county, but, after consulting a lawyer, withdrew his objection, and agreed to their going, with the express understanding that they are simply visitors and are to return in May. He had a two hour's talk with the children last evening, and bade them good-by.

CRIME CALENDAR.

A Pair of California Murderers Lynched—Other Notes.

By Telegraph to THE SENTINEL.

SAN FRANCISCO, Cal., April 2.—In southern California on Wednesday evening, Peter Hermone and his son, without a word, opened fire upon Eugene Walker, who with his wife and child, was in his garden. Walker fell dead and Mrs. Walker was fatally wounded. The murderers were captured and after midnight were lynched by a masked mob. A dispute about land was the cause of the crime.

HENRIETTA, Texas, April 2.—Valentine Sanford, fourteen years old, has been found guilty of murder in the first degree, for killing his mother. Punishment was assessed at confinement in the penitentiary for life.

LEXINGTON, Mo., April 2.—Jeff Wilson, colored, was hanged to-day for the murder of Johnnie Sanford, his mistress, on July 31, 1884.

A THUNDERBOLT.

Prominent East St. Louis Officials Indicted by the Grand Jury.

By Telegraph to THE SENTINEL.

EAST ST. LOUIS, Ill., April 2.—A thunderbolt has struck this city in the shape of indictments from the grand jury against nearly all the prominent city officials and politicians, charging them with corrupt and criminal acts. The murder of ex-Mayor Bowman is supposed to have been for the purpose of preventing

him from exposing crimes now brought to light. Among the indictments are one against the city treasurer for holding public funds and malfeasance; two aldermen, an ex-alderman, city attorney, school treasurer and three politicians, for permitting illegal voting; chief of police, ex-mayor, city clerk, county recorder and four aldermen, for conspiracy.

CHICAGO, April 2.—A Des Moines special says that the assembly passed a bill prohibiting Alien non-residents from acquiring a title to real estate in Iowa.

FROM OCEAN TO OCEAN.

The Inter-oceanic Ship Railway Scheme of Capt. Eads.

WASHINGTON, March 30.—The problem of how best to transport vessels across Central America seems to be as far from settlement as ever. Dr. Lesseppe's canal project is being prosecuted as rapidly as the climate and nature of the work will permit, and capable engineers here claim it will still require a quarter century before it is complete, providing funds are supplied steadily and no further obstacles are encountered. Its estimated cost was originally about \$150,000,000.

The Nicaragua canal scheme is the next project to be considered, but it has only just the introductory stage of having been surveyed and estimated upon. It is to be a lifting lock canal, containing about eighteen large locks. A government commission estimated the cost of constructing this canal at \$1,000,000.

The youngest of the transisthmian schemes is still only on paper, but it promises to be the liveliest of the lot. It is the inter-oceanic railway plan projected by Capt. Eads, of jetty fame.

STRONG STATEMENTS.

Rev. S. H. Troyer, of New Albany, Ind., states as follows how he saved himself from an attack which threatened serious results:

"On the 7th of June, 1884, I was taken with rheumatic fever, and for five weeks I took two more doses of it. The first dose gave me much relief, and the second seemed so greatly that I was enabled to talk freely and with comfort to my family and friends. The third dose enabled me to sleep four and a half hours without waking. I continued the use of Athlophoros until fourteen bottles in all had been taken. By this time my health was so much improved that I left off the medicine. That was in December, 1884, and I am now quite well."

"My first dose of Athlophoros was taken at two o'clock in the afternoon, and I took two more soon after. The first dose gave me much relief, and the second seemed so greatly that I was enabled to talk freely and with comfort to my family and friends. The third dose enabled me to sleep four and a half hours without waking. I continued the use of Athlophoros until fourteen bottles in all had been taken. By this time my health was so much improved that I left off the medicine. That was in December, 1884, and I am now quite well."

Rev. Wm. Cool, of Denver, Ind., says: "I used only one bottle of Athlophoros, and I think it a good medicine. I consider that I derived much benefit from it."

"Athlophoros," says Mr. D. P. Sheets, of Mooresville, Ind., "gave me great satisfaction in a case of neuralgia, and I can heartily recommend it to others as doing all that is claimed for it."

Mr. J. A. Wilson, the photographer of New Albany, Ind., whose offices are at Nos. 6 and 8 Main street, tells of one of these cases. His story follows:

"I had rheumatism but it disappeared after using only one bottle of Athlophoros. It was in my arm and I had sharp, shooting pains. I was suffering and complaining a good deal when a friend, coming into my gallery one morning, asked me what the trouble was. I said it was rheumatism. He told me of Athlophoros as a cure for neuralgia and rheumatism, and it struck me very forcibly, as it did not claim to cure every complaint that flesh is heir to. I bought a bottle on the strength of what he said. That was all I needed. I used the one bottle over six months ago, and have not had one ache or pain from rheumatism since."

Mr. Hiram F. Sides, of Fort Branch, Ind., says of his wife's cure:

"Her suffering from neuralgia was intense, and we concluded to try Athlophoros. Almost from the first dose I could see that she was improving, and two bottles effected a permanent cure, so that she feels no effects of her once dreaded disease. I tried it for rheumatism and soon found relief, one bottle curing me. I shall take great pleasure in recommending Athlophoros to my neighbors."

"You cannot get Athlophoros of your druggist, we will send it express paid, on receipt of regular price—one dollar per bottle. We prefer that you buy it from our druggist, but if he hasn't it, do not be persuaded to try something else, but order at once from us as directed. ATHLOPHOROS CO., 112 Wall Street, New York."

NEVER SAY DIE THOUGH YOU COUGH TILL YOUR HEART ACHES

When the "Life Restoring" East India Remedy is at hand, one bottle will satisfy the most skeptical that Dr. H. JAMES' preparation of Indian Hemp will positively cure Croup, Bronchitis, Asthma, Nervous Debility, and Nasal Catarrh. It is an important remedy. Try it—prove it for yourself.

Here are a few extracts from letters of persons who were cured, and now order for their friends:

"I fear cousin is in a decline, and as my medicines cured my only brother of a Hemorrhage of the Lungs about a year ago, I wish cousin to take them. Thy true friend, HANNAH MICKLE, Near Woodbury, N. J."

"As your medicine cured me of Consumption, some three years ago, I want him to try them. I gained fifteen pounds while taking the first three bottles. J. V. HILL, Lawrenceburg, Anderson Co., Ky."

"Mother has been suffering with Bronchitis nearly twenty years, and tried most all kinds of medicine, and says the Cannabis India is the only thing that gives her relief. J. ANNE ASHBROOK, Lovelaceville, Ballard Co., Ky."

"I know all about the Cannabis India. Fifteen years ago it cured my daughter of the Asthma; she had it very bad for several years, but was perfectly cured. Please send me a box of your medicine. JACOB TROUT, Deep River, Howesick Co., Iowa."

"I have taken the Cannabis India as directed, and am happy to tell you that I am perfectly cured of Nasal Catarrh. You were right, my trouble was not Consumption, but Catarrh. JAMES A. CALDWELL, Wabash Ave., Chicago, Ill."

"It has cured Mrs. Rebout of General Debility of the whole system, of two or three years' standing and of nervous prostration. BRADDOCK & CO., proprietors, 1022 Race St., Philadelphia, Pa."

Ask your druggist for Dr. H. JAMES' Cannabis India, and if they fail you, send to us direct, \$2.50 per bottle or three bottles for \$6.50. Pills and capsules by express. BRADDOCK & CO., proprietors, 1022 Race St., Philadelphia, Pa."

FRIDAY, APRIL 2, 1886.

SARAH WINNEMUCA, the Piute Princess, has built a school-house at Lovelock, Nevada, where twenty-five little Piutes are learning to read and write free of all expense. They are said to be very bright scholars.

A METHODIST preacher in the Bottineau district (Dakota) has a circuit of 250 miles, and has been making his points most of the time on foot, but friends have recently presented him with a horse and vehicle. His salary has not been large.

The North German Gazette, of Berlin, says: "The prosecution is imminent of numerous Germans who style themselves doctors on the strength of diplomas purchased in America. There are 3,400 such doctors in Berlin alone."

An old Federal soldier, now in Congress, recently said: "The best corps commander, I believe, in either army, was Joe Hooker. I never saw a man who could handle a corps so well and get so much fighting out of it. But that was the limit of Hooker's capacity as a General. Several times he had command of an army, and each time he adopted the tactics which made him a matchless corps commander. He did not have a power of generalization sufficient to overcome his natural pugnacity. If one part of his line was getting the worst of a fight, he could not leave it, even to secure a greater advantage elsewhere."

MR. BROADHURST, the first English workman to become a Cabinet Minister, is described as a sturdy, thick-set man, with a determined mouth and a merry twinkle in his eye. His determination and his humor go together to make up an admirable character. They enable him to be persistent and pleasant at the same time. He will joke you into agreeing with him, just as he is always ready to agree with you in joking with him. He is as shrewd as he is sentimental, and has an eye for what is practical as keen as a hawk's. No man is better fitted to give advice to his friends. He is as great a favorite in what are called the upper circles of politicians as any in the House. He is a devout Wesleyan, a widower, a lover of a good story and a quiet dinner.

SAYS the Washington correspondent of the Philadelphia Press: "Bob Ingersoll called upon Secretary Lamar at the Interior Department, and in the course of half an hour's conversation said scores of witty things, which Lamar, lying back upon the sofa in his private office, enjoyed immensely. Ingersoll finally made some remark in ridicule of orthodox Christianity. There was a momentary pause when he finished, and the Secretary jumped to his feet, throwing his long hair, with an impatient gesture, back from his forehead. 'Ingersoll,' he exclaimed, 'I hope to live to see the day when you will come to this Capital City and preach to the world Christ and Him crucified! With your magnificent abilities and splendid oratory you could work a revival such as the world has never seen. I hope, Bob, to see the day when this will come to pass, and you could not engage in any grander or more noble work.'"

TO THE list of distinguished Smiths, of which the large family of that name is so proud, should be added the name of Julia Smith, of Glastonbury, Connecticut, who died recently at the age of 91. It was she and her younger sister, Abby, who won a world-wide reputation a few years ago by refusing to pay their taxes because they could not vote, and suffered their cow to be sold rather than yield to what they thought was a wrong principle. She also translated the Bible from the Hebrew and the Greek. Her name was Julia Evelyn Smith, and her sister's, Abby Hadassah. They were the daughters of Zephania H. Smith and Hannah Hadassah Hickok, his wife, of Hartford. They had three older sisters, whose names were Nancy Zephania, Cynthia Sacretia, and Laurilla Alroya Smith. If anybody mixed them up with Mary Ann, Sarah Ann, Mary Jane Smith, or any other ordinary female Smith, it was his own fault.

The new law increasing the pensions of widows from \$8 to \$12 a month, which went into effect in the 19th, is causing a great amount of extra work at the Indianapolis pension office, as there are six thousand such pensioners in Indiana, and all their vouchers have to be changed.

SINCE the accession of Pope Leo XIII. forty-four Cardinals have died. Of the Cardinals created by Pope Pius IX. twenty-five are still living, the remaining thirty-four have been created by Leo XIII. There are now ten vacancies in the Sacred College. Cardinal Newman is the oldest of the Cardinals. There are now 1,208 dignitaries in the Roman Catholic hierarchy.

A WASHINGTON dispatch to the Indianapolis Journal intimates that there is a probability that at the nomination of District Attorney Lamb will be withdrawn. Mr. Lamb said that this was all news to him, and doubtless without the slightest foundation. At any rate, he did not appear to be particularly disturbed about it. He still thinks he will be confirmed without any serious opposition.

TERENCE V. POWDERLY, who is being talked about now as much as any other man in the country, came from the same range of mountains that Jay Gould did. Mr. Powderly, who is of Irish stock, was born in Carbondale, January 24, 1849. He was a machinist by trade, and has belonged to the machinist union, of Scranton, since he was nineteen. He was chosen mayor of Scranton, in 1877, and was re-elected twice. He has been re-elected six times as the head of the Knights of Labor.

"The Central Union Telephone company has taken under advisement the suggestion of certain prominent patrons that it turn over to its subscribers its exchange and equipment in this city, to be operated by the latter at actual cost. It will require several days to fully consider and mature the plans taken under advisement. Meantime no instruments are to be removed, and the company at noon abandoned preparations for the beginning of the removal of telephones of subscribers whose contracts have expired. If the plans under consideration are matured, as now appears, the exchange will be operated as it is now constituted, at least until the supreme court of the United States passes upon the Indiana telephone law. As heretofore intimated, the subscribers are to be represented by a board of probably ten directors. A circular from the company will probably be issued soon to subscribers. The woods are full of representatives of telephone companies who profess an eagerness to enter the city and furnish service, but the most of them seem to be peddling patents and soliciting financial assistance. The Cushman company has put up instruments at the Bates house, and the councilmen will examine them tonight," says the Indianapolis News.

PURIFY YOUR BLOOD.

Among spring preparations, do not neglect that which is most important of all—your own body. During the winter the blood absorbs many impurities, which, if not expelled, are liable to break out in scrofula or other disease. The best spring medicine is Hood's Sarsaparilla. It expels every impurity from the blood, and gives strength to every function of the body. Sold by all druggists.

The Morning Dress.

It is said that a lady's standing in society can easily be determined by her dress at the breakfast-table; an expensive, showy costume indicating that the wearer has not yet learned the proprieties. But no one need be afraid of being called "shoddy" if her loveliness is as apparent by daylight as at the hope. Perfect beauty is never the attendant of disease; above all, of those diseases peculiar to women, and which find a ready cure in Dr. Pierce's "Favorite Prescription." Price reduced to one dollar. By druggists.

L. B. Hall and wife, of Jeffersonville, celebrated the sixty-fifth anniversary of their marriage on Monday evening, with a large company of friends.

In the Hop Plasters the virtues of fresh hops are combined with strengthening and stimulating balsams, and its cures of weak back, pain in the side, rheumatism, neuralgia or pain in the chest are simply marvelous, if being more efficacious and thorough than any liniment or liquid remedies. You'll say so after using.

STRANGE TALE OF A LOST CIGAR CASE.

"I had a very singular thing happen to me yesterday," said a solemn-looking man in the Lahr House last night, addressing a group collectively who sat about the radiator.

"Nobody spoke."

"It occurred this way," continued the solemn man, after a pause. "I was in business at Danville about six years ago, and I ran over to Indianapolis one day to pay some \$800 worth of bills. I had the cash in a compact little bundle, with a rubber around it. It wasn't much, but I was poor then, as I am now, and it represented very nearly my entire capital. Well, I stopped at the Bates House, and in the evening, as I was smoking my cigar, I felt mechanically for my money, and—"

"It was gone," said one of the group. "Exactly. It had disappeared. I searched myself excitedly, but did not find it. Then I rushed to my room, and looked all over that, but in vain. I tried to remember exactly when I had looked at it last, and soon had everybody in the office helping me hunt. We didn't find it, however. It was a very mysterious thing. I had it in my hand but a few moments before to see if the rubber was intact, and the roll seemed to have vanished into thin air. Nobody had been near enough to me to pick my pocket, and dropping the money was out of the question."

"Well, the loss half crazed me, and, as it eventually happened, broke me up in business, for my creditors crowded down on me, and I was forced to make an assignment. I went on the road for another house, and meantime years rolled by."

"Well, I was at the Bates House yesterday, and in the course of the evening strolled up to the cigar stand to get a weed."

"Yes," said a traveling man, beginning to get interested.

"The cigar dealer looked at me closely for a moment and said: 'Weren't you here one night about six years ago?' 'Yes,' I replied, with a pang of recollection shooting through me, 'I was.' 'Do you remember buying a cigar at this stand?' 'Yes, I do.' 'Do you remember leaving your cigar case on the counter?' I studied for an instant, and then it flashed on me that I had never seen my cigar case from that night. 'Yes,' I answered, 'I believe I did.' 'Well,' he said, 'I have it here for you.'"

By this time the group by the radiator had clustered around him, and there was a breathless silence.

"The cigar man fumbled around his odds and ends for a while," the sad-eyed man went on, "and finally produced my identical case, all battered and covered with dust. It had lain there for six years."

"The mischief!" exclaimed a traveling man, nervously.

"Yes, and I was so excited I could hardly take it. There was a little spring clasp; I pressed it, the case flew open, and there was—"

"Your money? By Jove!" shouted the drummer.

"No; three cigars."—The Comet.

A STONE FOR BREAD.

The Failure of Beef Tea.
(From the Philadelphia Press.)

One by one, in turn, like the nostrums which sicken and deplete the system, the so-called strength-giving devices fall into disuse, to be supplanted by what the common sense of the people has discovered to be simpler and better. Not long since the Chicago "News" published the following: "Chemistry has decided that the food value of beef tea is so small that it can scarcely be classed as a food. Physicians have for some time taught that to give a convalescent beef tea—even the very strength of the meat—is to give him a stone when he asks for bread. What is needed is to add malt to some of the prepared food. This fact is not sufficiently well known to nurses, and hence convalescence is often needlessly prolonged."

About the same time another chemist declared that oat-meal, as a food, had about as much value as "chips." Simultaneous with these disclosures, there appeared in the Cincinnati "Times-Star," a discussion, at length, upon the merits of Beef Tea, in which appeared the results obtained by a German scientist from experiments upon two dogs to ascertain its value as a food. The two animals, comparatively, were of equal strength and health, and for a stated time were given, respectively water and beef tea. The one to which beef tea was administered died, the other, sustained on water, lived. One-half the restoratives do not restore promptly, or efficaciously. Nature wants a help to get stronger. Medicine might further weaken. Physicians, without exception, now unite in prescribing pure whiskey absolutely free from fusel oil, and other noxious and poisonous adulterations which are the chief objections to ordinary whiskeys. Not until recently, however, was the process discovered of eliminating the active and virulent poison. But upon the introduction of Duffy's pure malt whiskey, which scientists declare to be absolutely pure, it at once became the standard in medical practice, and combining a food and stimulant quality, it is the recognized specific in the place of these discarded nostrums.

The Grand Rapids and Indiana are making negotiations with C. C. Comstock for the right of way for a permanent siding from their main track at Grand Rapids to the river opposite the soldiers' home. They are building a side track north of the gravel road for temporary use in placing freight required for the construction of the home. It will be completed to day.

"P. S. O'Rourke has withdrawn from the congressional race in the Twelfth district and has issued a manifesto in which he conclusively proves that he is not a democrat. Some of Mr. O'Rourke's admiring friends, if he has any, should send him a case of soothing syrup. These passionate outbreaks are sometimes dangerous—to the fellow who has them," says the Huntington Democrat.

Dora Beach had her husband Fred, the second hand furniture dealer, from whom she asks to be divorced, jerked out before Judge Saylor at Huntington, on a habeas corpus case. She asked for the custody of the child, Clara, whom Fred had in his possession. When the case came up for hearing she dismissed it. Mrs. Beach is now in this city, and Fred, who once raised an ash pole here, threatens to move to Fort Wayne and also leave Huntington.

The Grand Rapids and Indiana railroad are making special effort this season to make the summer resorts along their line particularly attractive. They are just about to issue a beautiful descriptive guide to Rome City, with many fine wood cuts illustrating the scenery about the lake near that place. A handsome calendar, printed in many beautifully shaded and blended colors, has just been sent out. It is for the purpose of advertising the "fishing line" of the road.

The spring inspection of the Grand Rapids and Indiana is completed. President Hughart says of it: "I was very agreeably disappointed in the condition of the track on the main road and its branches. The winter, with its numerous frosts and thaws, and with the late heavy rain storms, has been such as to put the best road bed in very bad condition. To my surprise, we found the tracks very smooth and in splendid condition. All along the line there is a fine outlook for an immense business during the coming season, and I am well satisfied with the favorable business prospects."

The Richmond Palladium wants to atone for the mendacious spirit of W. H. Smith's letter in the Cincinnati Commercial-Gazette by inferring that it did not say Mr. Smith and P. S. O'Rourke were "stopping at the same hotel." The Palladium did say, in two items, both men were in that city on the same day, and said they were guests at the Arlington hotel. If Mr. O'Rourke did not consult with Mr. Smith he can say so, and remove unpleasant ear marks.

A large number of curious people are anxious to know why the east bound passenger train on the Wabash road, due in this city at 1:30 p. m., is so closely followed by another passenger train. The Wabash road has entered into a contract with the government for the rapid delivery of west bound through mail from Toledo to St. Louis. This class of mail matter is carried on the west bound train and by this arrangement a large number of mail cars and passenger coaches are sent west, and they are promptly needed at the east end of the road it becomes necessary to get them there as soon as possible. The train which follows the regular east bound passenger train is made up of the above class of cars.

Constable John Robbins came in with pretty big game this morning in the person of Free Casto, who belongs to one of the first families of Van Wert. The young man procured a horse from Deputy United States Marshal Wilkinson's Hedekin house stables some time ago, and driving to Van Wert he sold the steed and put the proceeds into his pocket. Mr. Casto was induced to step into this county last evening and did so at his peril, because Constable Robbins put irons on him. He gave bail for his appearance when the case is called.

The Strikers Take Sides Against Gould.

And Master Workman Irons says the Magnate Runs this Country to Suit Himself.

All the Men or None Will go to Work Powderly is ill—Hoxie's Telegram.

THE STRIKE. All the Knights on None Must go to Work.

By Telegram to THE SENTINEL. EAST ST. LOUIS, April 2.—After Governor Oglesby spoke yesterday afternoon, Martin Irons replied, taking issue with the governor that this was the best government on earth. He declared it had been perverted and that Jay Gould ran it and defied the law whenever he pleased without any rebuke, but that he had appealed to the civil power to prevent any lawlessness among his oppressed employees. Irons said the strike was not on account of Hall's discharge, but for principle and the recognition of organized labor.

ALL MEN MUST BE TAKEN BACK. The Knights demand that all who struck be taken back in a body, and the railway officials are determined to re-employ only those actually needed, consequently the strike still continues.

POWDERLY ILL. SORANTON, April 2.—Mr. Powderly is at home ill and his physician prescribes absolute rest for some days.

A STRIKE Averted. PHILADELPHIA, April 2.—At a mass meeting the street employees ratified a compromise, thereby averting a strike. The men got about all they demanded.

THE WORST OVER. NEW YORK, April 2.—Jay Gould, received a dispatch from Hoxie at St. Louis, saying that he thought the worst was over, but things may not run smoothly for some days. He had plenty of force to run trains and do repairs and was gradually recruiting his force with new men.

SIXTEEN HUNDRED DELEGATES FROM Knights of Labor organizations will hold a convention at Cincinnati, April 17, and Mr. Powderly is expected to preside.

NOT ARRIVED YET. ST. LOUIS, Mo., April 2.—The general executive committee have not arrived up to 1 p. m.

A Ball Player's Claim. BY TELEGRAPH TO THE SENTINEL. PITTSBURGH, Pa., April 2.—The application of Samuel Barkley, the ball player, for the court to restrain the American association from interfering with him for playing with the Pittsburg club, was before Judge Stowe to-day. The judge took the question of jurisdiction under consideration, and said that the action of the association in suspending and fining Barkley was clearly illegal, but he was not sure that his injunction would operate outside of Pennsylvania.

A \$60,000 FIRE. BY TELEGRAPH TO THE SENTINEL. CHICAGO, April 2.—A fire to-day in the factory of the Fairbank Canning company damaged the building and machinery to the extent of \$60,000. Two hundred men employed in the department where the fire originated barely escaped with their lives. Insurance, \$30,000.

BUSINESS FAILURES. BY TELEGRAPH TO THE SENTINEL. NEW YORK, April 2.—The business failures of the first quarter of 1886 in the United States were 3,208. Liabilities slightly over \$20,000,000. Less than in any similar period since 1873.

Michigan City people are not satisfied with the \$48,000 appropriated to that city by congress in the river and harbor bill, and claim that \$100,000 will be necessary for needed harbor improvements at that point.

The business portion of North Liberty in the southern part of St. Joseph county, was wiped out by fire last Sunday night. As the fire started in two places at the same time, it is believed it was caused by incendiaries.

The largest township in the state is Union township, Montgomery county, in which Crawfordville is located. It contains 101 square miles, and in November, 1884, 2,990 votes were cast. Within its borders there are four towns, two stations and part of another town.

In the Brazil mining district 1,500 miners have signed the temperance pledge, and several saloons have been closed owing to the conversion of the proprietors. The revival has been conducted by Mr. J. E. Martin, president of the Vigo county temperance union.

Further developments in the Miller Brothers' failure, at Evansville, show a most deplorable state of affairs. Besides its \$184,500 of liabilities first reported, and which have been secured, it now appears that there are nearly \$200,000 of debts totally unsecured, making the total liabilities about half that amount. Speculation was the cause of the failure.

The locomotive engineers have arranged a grand gift concert for the benefit of the widows and orphans of members of their brotherhood. It is proposed to give away \$100,000 worth of personality and really, including a number of farms and many useful articles on which 62,500 chances will be held. The drawing takes place April 19, at Doyle's opera house, Mattoon, Ill. Tickets are \$2.00 each.

The citizens of Garrett and Auburn are moving in the matter of gravel roads, several meetings having already been held to consider the subject. "Tuesday night, in accordance with the agreement of the meeting held Monday night of last week, the citizens of Auburn met again in the court room, and discussed at greater length the advisability of making a gravel road from our town west to the county line, with a side road branching to Garrett. Estimates as to costs per mile varied from \$1,000 to \$1,600," says the Auburn Dispatch.

Low Cassidy, of South Bend, has invented an invisible duck boat which is said to be a success. He took an ordinary cat bottom boat, put the sides, from the bow back one-third of the length, down to the water line, covered the part over and made it air tight, and then placed at the rear end of this compartment twenty-eight inches high, and as wide as the boat. Behind this mirror he had the balance of the boat in which to paddle and shoot. He proved by a trial that he could paddle his boat straight up to a flock of ducks, watching them through a peep hole in the mirror.

When they looked toward the boat all they saw was their own reflection in the glass. When within easy shot the hunter dropped the mirror by losing a catch and got two shots, one at the ducks on the water and one at the ducks on the water and one at the ducks on the water.

"Adam Patry struck a job last Saturday. In the morning he was complaining to Wm. J. Craig that he could not get any work. Craig did not think Adam wanted work, and told him so. 'Yes I do,' says Adam, 'whereupon Mr. Craig said he would give Adam three dollars if he would carry a chair all day from Townsend's residence on Wabash street, to the engine house, which Adam accepted, and Jim Godfrey was hired to watch Adam and see if he filled his contract, which he did, and Jim got his dollar for bossing the job and see it well done,' says the Bluffton Chronicle.

CONGRESSMAN BROWN HURT. WASHINGTON, April 2.—Congressman Charles E. Brown, of Ohio, while going from the capitol to take a car for his home yesterday, accidentally fell with his entire weight on left leg, which had previously been wounded. At one time it was thought he would not survive during the night, but is resting comfortably to-day. No bones broken.

THE CAUCUS. The republican senators canvassed from noon until 3:20. No action taken.

HOUSE. On motion of Mr. O'Neill, of Missouri, the private business was dispensed with and the house went into committee of the whole, Mr. Springer in the chair, on the labor arbitration bill. All debate on the first section is limited to thirty minutes.

ARIZONA'S GOVERNOR. The successor of Frederick A. Tritle as governor of Arizona is C. Meyer Zuleik, of Newark, N. J. His term of office began in February last, but his confirmation was strenuously opposed by some members of the senate from the moment of its first announcement. A strong delegation went from Arizona to defend the confirmation on the ground, it is claimed, that Arizonians believe in the doctrine of home rule and that Governor Zuleik's way of doing business since he has assumed the duties of the office may do very well for the east, but they will not answer for the wild west. The salary attached to the office is but \$2,600 a year. Yet ten times that amount has already been spent in efforts to prevent Governor Zuleik's driving in.

THE JOURNAL CAUGHT ON AN APRIL FOOL. The Journal this morning had an item telling wisely about Jay Gould and party going through on the Muncie yesterday. The item was clipped from the Bluffton Times and this article from the same paper shows how the Journal was taken in: "Probably the most extensive joke of the day was the 'Times' 'Gould extra' to which we referred yesterday. A large crowd gathered at the 'Muncie' depot this morning to see the 'extra' composed of one Pullman dining car, one parlor car and the sleeper, drawn by Fort Wayne, Cincinnati and Louisville engine No. 23, carrying Jay Gould and party, arrive. Of course it did not arrive, and after waiting until weary, the 'gathered assembly' dispersed, 'kicking hard' for having made April fools of themselves. This little joke shows to what extent the Daily Times is read and should be noted by advertisers."

Geo. Graham Sends Out Another Story.

He Accuses Cora Lee of Shooting His First Wife Right in His Presence.

Mr. and Mrs. Lee T. Brees and Graham's Children Coming to Fort Wayne.

GEORGE GRAHAM. Makes His Semi-Official Confession of the Murder.

BY TELEGRAPH TO THE SENTINEL. SPRINGFIELD, Mo., April 2.—The theory of the defense in the Graham case was given a correspondent yesterday. After the preliminary examination of Molloy and Lee, Attorney Delany and other friends of Graham gave him their ultimatum by telling him his confession was too gaudy, and that he must, if he expected them to assist him, make a clean breast. The correspondent has it on good authority that Graham told them the following story, and that he has turned over to his lawyer notes, letters, telegrams, etc., to substantiate the tale—at any rate Delaney seems more cheerful and says Graham is guilty of no capital crime at all, and he will prove it. On the night of the murder Cora met Graham and wife at the depot at Dorchester, and there a council was held between the trio, Cora and George urging Sarah to clear out and not trouble them, offering her \$150, all the money they had. She refused, and all started to the farm in a wagon. All the way a hot quarrel was kept up between the two women, George trying to pacify them. When the pasture was reached, in a fit of jealous madness, Cora

and shot Sarah while she was clinging to George for protection, and if this tale is made to stick, and the letters, telegrams, etc., produced to show Cora was not expecting Sarah to get off at Dorchester, and evidence brought to light (as it is claimed will be) to show Cora did meet them at Dorchester, then the whole case will assume a new phase. The maximum punishment of Graham as accessory after the fact would be but five years. Graham seems to be willing, at least, to sacrifice Cora to save his own worthless neck. Mrs. Molloy has not yet given bail. A decision in the habeas corpus case will be given on Tuesday next.

GRAHAM'S FAMILY. Mr. and Mrs. Brees started for their home in Indiana last night, accompanied by Charles and Roy Graham. Yesterday afternoon Graham served notice on Brees not to take the children out of the county, but, after consulting a lawyer, withdrew his objection, and agreed to their going, with the express understanding that they are simply visitors and are to return in May. He had a two hour's talk with the children last evening, and bade them good-by.

Walker fell dead and Mrs. Walker was fatally wounded. The murderers were captured and after midnight were lynched by a masked mob. A dispute about land was the cause of the crime.

THE INTEROCEANIC SHIP RAILWAY Scheme of Capt. Eads.

WASHINGTON, March 30.—The problem of how best to transport vessels across Central America seems to be as far from settlement as ever. Do Lanes' canal project is being prosecuted as rapidly as the climate and nature of the work will permit, and capable engineers here claim it will still require a quarter century before it is complete, providing funds are supplied steadily and no further obstacles are encountered. Its estimated cost was originally about \$150,000,000.

The Nicaragua canal scheme is the next project to be considered, but it has only just the introductory stage of having been surveyed and estimated upon. It is to be a lifting lock canal, containing about eighteen large locks. A government commission estimated the cost of constructing this canal at \$1,000,000.

The youngest of the transisthmian schemes is still only on paper, but it promises to be the liveliest of the lot. It is the interoceanic railway plan projected by Capt. Eads, of jolly fame.

A STEAMER ON THE PROPOSED RAILWAY. This scheme is just now attracting the attention of congress, and has been reported on favorably by the committee having the matter under investigation. Herewith are presented sketches of the means proposed to be used and the reader can be his own judge in regard to the feasibility of the plan. Its projectors claim that it is simply a combination of the dry dock and marine railway now in use in shipyards. At the terminals of this proposed railway are to be constructed pontoons or dry docks, with sufficient buoyancy, when filled with air, to sustain the weight of the largest steamer afloat. These dry docks will be similar to those in use only that they will have a crane supported by some 500 carwheels, and these in turn rest on three tracks laid on the pontoon. When the pontoon is sunk the vessel floats over this cradle, the water is pumped out of the pontoon until the vessel is raised completely out of the water. The buoys on which the vessel rests are then adjusted, after which several powerful locomotives are attached to the cradle and it and its novel freight is drawn some 140 miles over a triple track railroad whose summit is about 750 feet above the sea level from which the railroad begins and ends. An illustration shows a steamer in transit.

THE PROPOSED DRY DOCK AND CRADLE. The company supporting Capt. Eads in this scheme contains some of the most practical men in the country. They seem to be thoroughly in earnest. They have secured a concession from the Mexican government which extends over a period of ninety-nine years from 1881. It authorizes the construction of this railway, guarantees protection to the property of the company and besides grants them 1,000,000 acres of public land. On the whole, the scheme is an enchanting one and fully equal to any of Jules Verne's flights of fancy.

CHARLESTON, W. Va., April 2.—The flood in the Kanawha and Elk rivers began receding early this morning and at 11 o'clock the marks show thirty-five feet in the channel. News from Point Pleasant says the Ohio river lacks but a few feet of being equal to the great flood of two years ago. In the flooded district of the city, many hundreds of people who lived in small houses are great sufferers, many having lost all their possessions.

NASHVILLE, Tenn., April 2.—The Cumberland river is rising here at the rate of three-fourths of an inch per hour, but is falling at the head. Many families are moving, their houses being partially submerged. There was a heavy rain this morning and the clouds are still threatening.

CHATTANOOGA, Tenn., April 2.—Both the gas works and water works are under water. There will be no gas to-night, and the water supply will be exhausted in twenty-four hours. It is said Manning was fully intent upon handing in his resignation, but was prostrated in his office half an hour later.

The principal business transacted was the revision of the Michigan passenger rate sheet. No important changes were made.

"P. S. O'Rourke has withdrawn from the congressional race in the Twelfth district and has issued a manifesto in which he conclusively proves that he is not a democrat. These passionate outbreaks are sometimes dangerous to the fellow who has them," says the Huntington Democrat.

The Grand Rapids and Indiana railroad are making special effort this season to make the summer resorts along their line particularly attractive. They are just about to issue a beautiful descriptive guide to Rome City, with many fine wood cuts illustrating the scenery about the lake near that place. The Richmond Palladium wants to atone for the mendacious spirit of W. H. Smith's letter in the Cincinnati Commercial-Gazette by informing that it did not say Mr. Smith and P. S. O'Rourke were "stopping at the same hotel." The Palladium did say, in two items, both men were in that city on the same day, and said they were guests at the Arlington hotel. If Mr. O'Rourke did not consent with Mr. Smith he can say so, and remove unpleasant ear marks.

The board of directors of the Y. M. C. A. met last evening and appointed the following gentlemen chairmen of important committees: George F. Seeley, on finance; Dr. W. T. Ferguson, on membership; Prof. Spencer R. Smith, on christian work; J. M. Moritz, on room and library. A resolution was passed instructing the president to secure the services of Moody and Sankey, the renowned evangelists, who will come as soon as their present engagements permit. They will probably be in Fort Wayne about September or October next.

A large number of curious people are anxious to know why the east bound passenger train on the Wabash road, due in this city at 1:30 p. m., is so closely followed by another passenger train. The Wabash road has entered into a contract with the government for the rapid delivery of west bound through mail from Toledo to St. Louis. This class of mail matter is carried on the west bound train and by this arrangement a large number of mail cars and passenger coaches are sent west, and as they are promptly needed at the east end of the road it becomes necessary to get them there as soon as possible. The train which follows the regular east bound passenger train is made up of the above class of cars.
